

2005 NA DIGE Users Group

September 13th
3:30 - 5:00 pm

(Poster Set up anytime after 3:30pm)
Tour # 1 of Vanderbilt University Proteomics Laboratory
Host: Dr. David Friedman

5:00 - 6:30 pm

Tour # 2 of Vanderbilt University Proteomics Laboratory
Host: Dr. David Friedman

6:00 - 9:00pm

Nashville Barbeque Buffet and Poster session at Marriott with Guest Speaker **Dr. Robert Cole**, Johns Hopkins University. Time approximate for talk will be 8:00pm

September 14th

7:30 - 8:00am

Continental Breakfast

8:00 - 8:15

GE Healthcare introduction

8:15 - 9:15

Dr. David Friedman Keynote Address

9:15 - 9:45

Break

9:45 - 10:45

Dr. Jackie Vogel; McGill University
"Large-Scale Analysis of Protein PPases In Budding Yeast"
Dr. Richard Somiari; ITSI
"Application of 2D-DIGE Technology for the Analysis of Clinical Specimens"

10:45 - 11:00

Break

11:00 - 11:30

Dr. Catherine Jozwik; USUHS
"Precision Clinical Proteomics Using saturation cy dyes and 2d-PAGE/ antibody microarrays for the analysis of Homogeneous cell populations from Bronchial Brush Biopsies"

11:30 - 12:45

Lunch and Posters

12:45 - 1:45

GE technical presentations
MDLC / DeCyder MS / EDA

1:45 - 2:15

Dr. William Dynan; Medical College of Georgia
"Reproducibility of 2D-DIGE for Determining Differences in Protein Expression Levels in Complex, Low-Abundance Samples: Implications for Biomarker Discovery"

2:15 - 2:30

Break

2:30 - 3:00

Dr. Tracy Andacht; University of Georgia
"Incorporating DIGE into Aquatic Toxicology"

3:00 - 4:00

Round table discussions
